Laptop Battery

How to find the correct battery for my laptop/notebook?

How can I find my battery’s part number?

1. Make sure the laptop is unplugged and turned off, and that the battery has cooled.
2. Flip the laptop upside down. Push the battery latch to the left "unlock" position. While holding the latch in this position, slide the battery out of the computer.
3. Look for the serial number that is printed on the label on the back of the battery. The serial number will be a combination of some letters and numbers that more conspicuous.
4. For you convenience, please refer to the pictures below to see an example for a A32-K93 part number:
