

Payment

Why was my credit card payment declined?

All payment processing is handled by an independent secure payment processor. Our website is not given any payment information. Please verify the following and contact your credit card issuer if the problem persists.

1. Incorrect billing information
2. Insufficient funds
3. Card has been reported as lost or stolen
4. Card has expired
5. Card has not been activated
6. Card cannot be used to pay for goods/services in a Cardholder-Not-Present environment (online/over the internet)
7. 3-D Secure (MasterCard SecureCode and Verified by Visa) has not been activated
8. Credit limit reached
